Legacy Panel

Cirrus SR Series Panel Upgrade Kit

- + Custom Adapter Plate
- + Dual **100W USB-C PD / 15W USB-A** Chargers
- + **SAM[®]** Standby Attitude Module

SAM[®]
Standby Attitude Module

STC Approved on Cirrus SR20, SR22 and SR22T Aircraft

- + Attitude, altitude, airspeed, slip, and vertical trend indication
- + Heading via MD32 Magnetometer (optional) or aircraft system
- + Five primary functions utilize modern solid-state MEMS gyro, accelerometer and pressure transducer technology
- + Extremely lightweight (1.6 lbs) and compact (2.4" x 5.3" footprint)
- + Self-contained, rechargeable, field-replaceable emergency battery
- + Unique, two-screen display with wide viewing angles
- + Simple user interface – one knob configures the display and provides menu control
- + Field-upgradeable software via standard USB port
- + Two-year or 2,000-hour warranty
- + FAA TSO certified and AML STC approved

PRODUCT DETAILS

100-WATT
USB Charger

The only Starlink[®] Mini Compatible USB Chargers in Aviation*

- + Delivers up to 100 watts of power
- + Charge two devices simultaneously at maximum power from each port
- + Dual ports: USB-C PD (100 watts) and USB-A (15 watts at 3A)
- + 22 - 32 VDC input voltage
- + Compatible with USB-C PD, USB-C and USB-A devices
- + Short circuit, power surges, overload and over temperature protection
